

## Building Brisbane's Finest Pools And Landscapes Since 1978

- ✓ **CREATIVE 3D DESIGNS** We create customised 3D concepts of your complete pool and landscape project with all finishes and materials included for swim through presentations. Our specialised team of landscape designers offer the latest in outdoor design for your home.
- ✓ **ITEMISED QUOTES** Our detailed construction quotes offer an all inclusive up front package with itemised sections of costs and optional upgrades available for your consideration. Take the hassle and stress out of your project by working with an experienced name you can trust.
- ✓ **PERSONAL SERVICE** We build a limited number of projects to guarantee that each of our clients receive the attention, communication and professional project management we are known for. We want your positive referral and we guarantee to do everything we can to insure we get it.
- ✓ **AWARD WINNING BUILDERS** Our team of specialised builders work to the highest industry standards to create luxury pool projects built with both passion and professionalism.
- ✓ **QUALITY FINISHES** All our pools use the highest quality materials and interiors including natural stone, polished pebbles, quartz, glass beads and fully tiled. We guarantee each pool will be an eye-catching creation for your family and friends to enjoy day or night.
- ✓ **SHOP AT HOME SERVICE** We make the material selections for your new pool and landscaping easy, by bringing all the options to your home for your selection. Let our designers work with you to recommend and create an individual pool that is a reflection of both your lifestyle and your personality. Our pools are as unique as you are and we build for lasting quality not mass produced quantity.
- ✓ **ECO-SMART POOLS** We use the latest technology in fresh water pools and quality energy efficient hydraulic operating systems, which will reduce your chemical reliance and energy use to save you time and money. Let us create for you a pool that is always clean, fresh, safe and inviting without the ongoing cost of heavy chemicals and cleaning.
- ✓ **A COMPLETE SERVICE** We specialise in working with you to offer a complete design and construction experience from initial concept design through construction to final handover.
